

## Doctor – What are you waiting for?

Lab or imaging results?

Reports you dictated at the hospital?

Clinical results for referred patients?

Patient data for billing?

A direct data feed from the hospital to your EMR?

*With HealthBridge, you can have it all.*

**Now.**

*“HealthBridge is a wonderful timesaving tool. No more phoning for reports, no more waiting for reports to be faxed over.”*  
St. Charles Care Center

HealthBridge connects you and your staff electronically to the patient information you need.  
**Anytime. Anywhere. It's secure. And it's free.**

**All you need** A PC, a browser and Internet access

**What you get** Immediate, easy and secure access to:

- Labs
- Radiology images
- Insurance information
- And much more!
- Transcribed reports
- Patient contact & billing data
- Coding support

**How you get it** HealthBridge member hospitals\* instantly transmit results directly to your clinical mailbox. Or, access any member hospital's clinical information system as if you were on-site.

\* The Health Alliance ▪ Mercy Health Partners ▪ TriHealth ▪ Cincinnati Children's Hospital Medical Center ▪ St. Elizabeth Medical Center ▪ LabOne ▪ Drake Center and others.

*“Clinical messaging has significantly decreased the amount of time staff spend on the telephone with Medical Records”*  
Patient First Physician Group

*“We are charging surgeries out within 48 hours. Some are paid within 14 days of the procedure.”*  
Riverhills Neurology
